This may be the first time you have have heard of "Oxydonor" Victory, have heard of "Oxydonor" Victory, but it is not a new treatment. It is thirty-eight years old and represents of the type work of that most eminent scientist, Dr. H. Sanche. It has had a strong prejudice and considerable akepticism to overcome, but as right is sure to conquer wrong in the long run, Dr. Sanche's "Victory," now called Oxydonor "Victory," has fought its way onward until today it has the gratifude of thousands of persons who have been cured by its wonderful power. It required no advertising to establish the utility and worth of the Oxydonor Victory, and the fact that it was invented by Dr. Sanche, and he alone—until its domain was trespassed upon, and today it is advertised only as a protection to the public at large.

000 Cholopa Morbus 000

For the benefit of those who may be suffering the same way, permit me to say I was taken very ill with a violent attack of Cholers Morbus a few days on since, after I reached my office, and my friends, becoming alarmed at my condition, sent at once to you for a "Viotory."

Almost as soon as it was applied I grew better, and was entirely well in on less than three hours. I have not had the slightest return of the trouble, and have been perfectly well ever since.

The cure was witnessed by many of the clerks in my office who knew my condition and know the results as stated. Very respectfully,

Inspectors Mothershead, Chase and Shepherd were the prosecuting witnesses, and the claim made was that Ferrero sold unsound fruit to the push-cart peddlers and others.

Ferrero, in his own behalf, said that when he sells bananas the persons to whom he sells them weed out the decayed ones and throw them into a barrel. He said he sold some of the bananas as cheap as ten cents a bunch.

A fine of \$10 was imposed and the defendant went out of court with a bunch of bananas that had been offered in evidence.

The season is just about commencing at Newport and Bar Harbor. The former is just a trifle ahead, judging from the announcements already made. A ball that will be quite up to the latest fashionable caper will inaugurate the gayeties at Newport next Thursday night. Even without the distinction her great wealth gives her, Miss Fair has many lovable traits in her disposition and is a very pretty girl. She is said to resemble her mother in a great many ways, and not the least in the winning manners that made the latter the belle of a mining camp.

What a contrast there is between the young ladyhood of this daughter of wealth and that of her mother! Mrs. Fair's young womanhood was spent in a miners' camp in the Sierra Nevadas, California.
